**RESISTANCE
WITHOUT COMPROMISE**

STOUT is the most robust and powerful MP-HT sweeper. Equipped with front collecting, it is able to collect heavy dirt even maintaining its effectiveness in the presence of large quantities of dust. The MP-HT **metal frame** makes this sweeper extremely solid and able to absorb important stresses. At the same time it is easy to handle and easy to operate, fundamental features of all MP-HT sweepers.

METAL FRAME

FOR
WAREHOUSES
AND CORRIDORS

FOR HEAVY
WORK

STOUT

MAX 170

HIGH DUMP

The robust hydraulic system allows to raise the whole collection group and unload directly into a container.

ERGONOMICS

Easy to use even for non-specialized operators. The driving position and the maneuverability make the job easy and comfortable. It does not require a drive license.

CABIN

Possibility to add a protective cabin.

ELECTRIC FILTER SHAKER

Cleans dust filters and keeps suction efficiency high.

SUCTION HOSE

Easy-to-connect, allows the cleaning of hard-to-reach places.

DUST CONTROL KIT WITH WATER

The water spray system on the brushes avoids raising dust while working. A disinfectant can be added into the water tank to increase the effectiveness of the cleaning.

ANTI-SHOCK BRUSHES

The brushes are mounted on elastic supports and retract on contact with an obstacle even near walls and shelves.

EASY MAINTENANCE

Easy access to all the main components. Easy to manage even for non-specialized operators. Changing filters, brushes or batteries will not be a problem.

TYPES OF FILTERS

Two types of filters are available: pockets, for standard use, and panel, for thin and moist powders.

EASY TO TRANSPORT

The dimensions of STOUT are designed to allow transport on vehicles that do not require particular licenses.

WORK IN SLOPE

It can also work on sloping surfaces and steep ramps (up to 19%).

STEERING WHEEL DRIVE

Allows tight bending radius and ensures great maneuverability.
